John Pitman's concluded to wear

John Pitman concluded to wear
his teeth 6 weeks steady. 3^{mo} 4th 1855
10^{mo} 12th 1855 I called John Pitman
into my office and talked with him
about his teeth. he said he did wear them
10 days steady but they dropped down. When
eating. He thought he had better try
them another month. he also said that a dentist
told him that he would make him a set of teeth that he
could eat or chew anything with. I told him that if
he was going to have another Dentist to make
him another set of teeth he must leave those
that I made that after noon but he declined
2nd 6th 1856 He came in & took out the ~~upper~~ set with
himself. May over no use to him he could not

570
1088
Keep them in his head. I laid them down on
the bench. I called his attention to the length
of time he had worn them, the work I had
done on them, and the front block having
been broken since I saw them last also
the injustice of his maneuvering.

412 I called on Dr Metcalf and found that J.P. had had an
upper set of teeth made by Dr M. in the 12th mo 1853 and had paid
him about \$19. Dr M. told me that J.P. spoke of the looseness of
his lower set & thought of having another set made, but the Dr
thought perhaps he would not have one immediately.
The Dr also told me that J.P. decided to have an upper
set of teeth and agreed with him to make them
his 15th 1856. J.P. called into my office with his lower plate broken
& asked me what he should do. I could be done with them, I told him
(over 2 leaves)

Estimons case

that I could mend them, he
expressed some doubt about their
being strong, he asked me
what he should pay me to

keep the upper set that he had

returned, & mend the lower so that it

should be strong. I told him that if I

settled the matter, he might give me the surplus for fish

& twenty five dollars cash then I would settle & mend

his lower plate, & which he did not object. Then he talked

about another lower set or another lower plate, the latter

I agreed to do & settle for 33\$ & charges for fish

he talked about the time for paying

the money, and went away to prepare the note and get

undressed and would come in the next time he
